

Geotab Keyless Solution

Your scalable digital key solution for shared vehicle access.

Benefits of the Geotab Keyless solution

Secured digital keyless access

Fully digitized keys that lock and unlock vehicles for authorized drivers via Bluetooth® or tap cards (NFC).

Scalable

Keyless offers a fast and simple installation that is non-intrusive and supports a range of vehicles and key fobs – including electric, hybrid, and light- and medium-duty vehicles.

Easy integration

Built for seamless integrations with software reservation platforms or your own platform.

Save time and money

Eliminate manual key sharing and replacement costs for lost keys.

Improved utilization

Gain complete fleet visibility to effectively schedule drivers with no physical key handoff necessary, optimizing vehicle utilization.

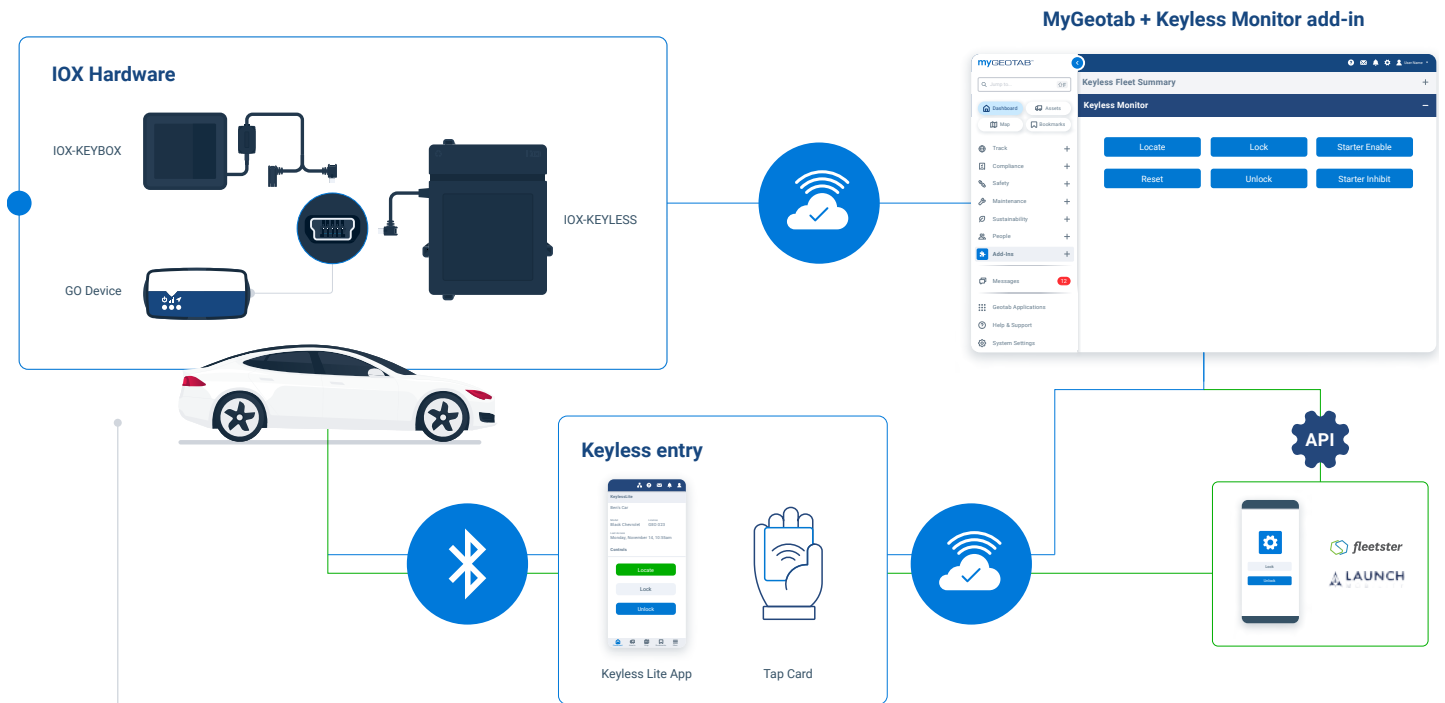

Protect your assets

Only authorized users can lock/unlock the vehicles, increasing security of your fleet from theft or misuse with a secured digital key solution.

Secured digital keyless access – anywhere, anytime

If you need a digital key solution for a few – or a few thousand – vehicles, Geotab Keyless offers you the best digital key solution for the vehicles in your fleet. Built on top of Geotab's scalable and flexible telematics platform, Geotab Keyless provides the tools you need to effectively share vehicle access.

How does Geotab Keyless work?

IOX Hardware

Securely activate a vehicle key using one of Geotab's Keyless hardware options: [IOX-Keyless](#) or [IOX-Keybox](#).

Your vehicle's key is placed within the Keyless hardware and connected to the [GO device](#) in a simple setup.

Keyless entry

Mobile access through Keyless Lite.

Use the Geotab Drive app to give authorized drivers instant access to locate, lock and unlock vehicles in locations with or without data connectivity.

Tap card access

When mobile access is not feasible or permitted, a NFC reader mounts safely to the vehicle's windshield and drivers with tap cards can then lock and unlock the vehicle.

Mobility integration Partners

Geotab Keyless is designed to seamlessly integrate with software reservation platforms. Choose to work with one of our integration partners on the Geotab Marketplace, or integrate directly into your own platform.
