

Geotab Integrated Solution for Toyota and Lexus

One integrated platform for optimal fleet performance.

Get centralized access to connected Toyota vehicle data via the MyGeotab® platform and the power to analyze vehicle data points, including GPS tracking, fuel level and mileage. Now, fleets have the power of the MyGeotab platform and its tools for improved fuel management, maintenance and fleet optimization. This integrated solution does not require any aftermarket telematics hardware¹.

One unified platform

Key benefits:

Integrated fleet management

All vehicle data is funneled to the MyGeotab fleet management portal for quicker, better-informed, data-driven decisions.

Maximise vehicle uptime

Connectivity capabilities on Toyota and Lexus vehicles, and remote activation maximize vehicle uptime.

Powerful fleet management tools

Get activity and fuel level reports — for better performance and fleet productivity.

Access to OEM data

Access vehicle data based on the OEM rate plan, Toyota Basic.

Cost advantage

No additional hardware or installation expenses, helping save time and money.

Productivity

- Track trips accurately with ignition based vehicle location data
- Easy dispatching for better asset utilization

Compliance

- Track personal vs. business use for employee productivity and tax regulation purposes

Expandability

- Software Development Kit and APIs to add additional functionalities for your growing business needs

Sustainability

- Lower operating costs with optimized routes and fleet efficiency

Operations

- Track fuel usage to optimize costs

TOYOTA

LEXUS

The power of Geotab’s telematics technology, along with Toyota and Lexus vehicles’ telematics capabilities, equips fleets with a turnkey connectivity solution that maximizes fuel management, reduces downtime and increases productivity and efficiency. Collect and monitor rich, OEM-quality data from Toyota vehicles with end-to-end data protection. With ready-to-go factory-fitted telematics and the MyGeotab fleet management platform, reaching a new level of connectivity is easier than ever.
